While the .BANK address will become the future home of online banking, there are some other new extensions where banks might want to secure and protect their brand names. Banks may consider utilize some of these extensions for marketing purposes. Note that unlike .BANK, NONE of these extensions are restricted to licensed banks, so cybersquatting and phishing could be a potential issue here for the banking industry.

Here is a list of new finance-related extensions banks should consider:

Extension	Cost (\$/year)	Extension	Cost (\$/year)
.CAPITAL	50.00	.HOLDINGS	50.00
.CARDS	30.00	.INVESTMENTS	100.00
.CREDIT	100.00	.INSURE	50.00
.CREDITCARD	150.00	.LOANS	100.00
.FINANCE	50.00	.MONEY	30.00
