ADDITIONAL SERVICES FOR BANKS

Brand Protection Services

While the .BANK address will become the future home of online banking, there are some other new extensions where banks might want to secure and protect their brand names against cybersquatting. Note that unlike .BANK, these other extensions are not restricted to licensed banks, so cybersquatting and phishing could be a potential issue here for the banking industry.

Here is a list of new finance-related extensions banks should consider:

Extension	Cost (\$/year)	Extension	Cost (\$/year)
.BROKER	750.00	.HOLDINGS	50.00
